

Brainstorm for INVERSION 3.0 Beta

NEEDS HUMAN
ELEMENT

Splash

Things to do

- EACH PAGE NEEDS AN INPUT list → Adam
- VARIABLE NAMING + STANDARDS
- fix "field" class - SEPARATE from the calendar
- also for EVENTS
- Installation SCRIPT
- INPUT of EVERY WINDOW (VIEW)
- check inputs for bogus input strings.
- validation
- after we have sketch layout.
 - ↳ sketch each page entirely.
 - ↳ translate to html - w/o functionality.
 - ↳ decide on folder layout.
 - ↳ add functionality one page at a time.
- iCS import/export.
- Optimize

Future Projects

- message program
- address book - plugin
- "update" plugin
 - status bar

For each file

comment box @ top
explaining file's purpose.
general execution. basic
output.
input variables expected.

Template!

functions.php for
standard functions.
